

Wifi at Telford College logon process. This will only need to be done once per device.

Android Devices

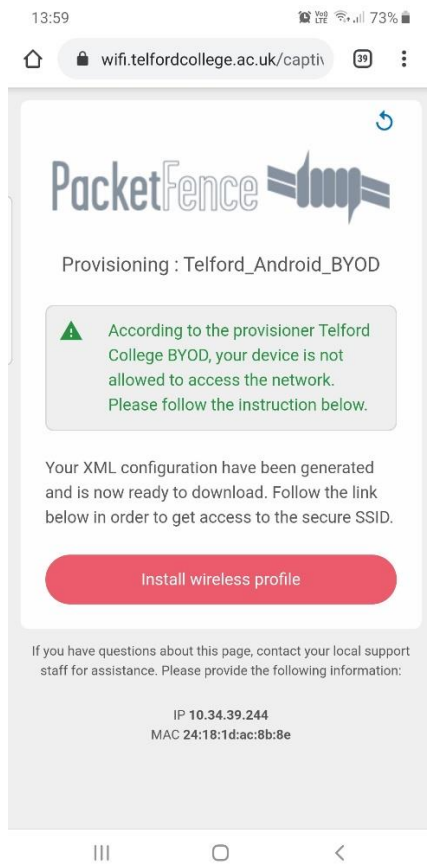

1. Connect you device through Wi-Fi to TelfordCollegeOnboarding
2. If you do not receive a pop up asking for your username and password, open a web browser and go to <http://bbc.co.uk>. Accept the warning if displayed to proceed.
3. You will now get the below:

4. Click I accept the terms, you will now get this:

5. Enter your email address and your password that you would use to log onto the computers in college. You will now see this:

6. Click install wireless profile
7. This will open the googleplay store on the PacketFence Agent page. Click download/open
8. Now click the Configure button that looks like this:
9. You will be prompted for you password again
10. You will now be joined to the college wifi. This is called TelfordCollege.

Apple Devices

1. Connect you device through wifi to TelfordCollegeOnboarding
2. You will then see the below. Click install wireless profile
3. You will see a message that say install profile, click install, and on the warning click install, on the next pop up click install
4. Enter your password when prompted and click next
5. Now you will see a message that says Profile Installed, click Done
6. You will now be able connect to the wifi called TelfordCollege
